

CNC2030 CNC ROUTER

The CNC2030 is a tough and flexible CNC router, perfect for signmakers, woodworkers, general fabrication and exhibition stand manufacture.

It has a large 3000mm x 2000mm work area and a powerful 2 x 2.2kW vacuum bed arrangement for precise and reliable workholding. A wide range of options are available, such as multiple spindles, spindle cooling options and linear toolchange facilities.

MACHINE FEATURES:

3.5kW air cooled spindle motor with 3.2kW water cooled spindle option available

Inverter driven spindle system, offering precise adjustment of cutting speed, smooth acceleration, deceleration and elimination of high inrush current

2 x 2.2kW vacuum bed arrangement with integral T-slots for added flexibility

Intuitive hand held control system with USB interface

Heavy duty base frame and gantry, offering a perfect balance between weight and stiffness

High quality machined ballscrews offering precise accuracy control

Supplied complete with vectric Cut2D Pro

Wide range of upgrades available including spindle motor power and tool change options

MATERIAL PROCESSING:

Woods and MDF

Acrylic

PVC

Foamex

Model Board

Aluminium, brass & other soft metals

Polycarbonate

Corian

Polypropylene

Carbon Fibre and other composites

ABS

Working size	2000mm x 3000mm x 200mm
Operating Voltage	230V single phase 50Hz (optional 3 phase available)
Operator control	DSPA 11 handheld controller
Spindle motor	3.5kW air cooled
Spindle speed	6,000-18,000 RPM
Spindle control	3.7kW variable speed drive (frequency inverter)
Motion control	Stepper motors
Table surface	Zoned vacuum bed with 2 x 2.2kW vacuum pumps and T-slots
Location precision	<0.05mm
Structure	Cast iron heavy duty welded frame and gantry
Axis transmission	Helical rack and pinions
Dust extraction	Dust cover, extraction pipe and support, dust bag extractor (optional)
Machine weight	1650kg
Collet size	ER20
Software	Vetric Cut2DPro
Electrical requirements	1 x 16A single phase socket (machine) 2 x 16A single phase sockets (vacuum pumps)
Dimensions	
Machine	3500mm long x 2800mm wide x 1600mm high
Control panel	580mm wide x 370mm deep x 980mm high
Dust extractor	700mm long x 440mm wide x 895mm high

Warranty	12 months onsite excluding consumables
-----------------	--

OPTIONAL EXTRAS:

- Spindle power upgrades
- 3.2kW water cooled spindle motor (max speed 24,000 RPM)
- Linear and rotary tool change options
- 4th axis arrangement
- Optional dust bag extractor
